

## **IMPORTANT NOTICE:**

### **Creditors' details**

We are legally required to provide names, addresses, and amount of claim for all creditors ("Creditor Details"), including those relating to employees and consumer creditors, on the creditor website so as to enable creditors to communicate with one another should they wish in order to exercise their rights as creditors. The website is password protected and can only be accessed by other creditors, each using their unique access code.

We are also required by law to exclude Creditor Details relating to employees and consumer creditors from any documents required to be filed at Companies House or otherwise put in the public domain. We confirm that no employee or consumer Creditor Details have been or will be put in the public domain by us. Any person who seeks to make such Creditor Details publically available will be committing an offence under the General Data Protection Regulations ("GDPR").
